

Dear Friends!

Greetings from Finland!

Two months ago all the media was full of covid-19. To day the same media is full of the war inUkraine.

Serious things both!

All the peoples have forgot the covid, though we have about 10 000 new every day and the hospitals are full. The war is now much more important. How about if... And now the poeples buy all kind of foods to home...

I suppose, that you know, what we think!

But the history of diving! In spite of all, we have to live and go on. The situation is now that it is possible to arrange ou r "Day of Diving". It will be in May, at the weekend 20.5. – 22.5. 2022.

We decided, that in this situation we have to know, are there coming participants from other Associations or other peoples.

So, can you tell me as soon as possible, are you coming or not.

If you are coming, as I hope, I make reservations both Silja Line and Hotell Bore as earlier.

I know that coming to Finland demands vaccinations (6 month)and tests.

But in spite of all, you are very wellcome!

With Best Regards!

Jouko Moisala
